

PRINT AWARE INSTALLATION GUIDE FOR CLIENTS

The Marco Support Team will generate and send an email to you that originates from printaware@i.marconet.com. Use this email to perform the installation following the steps below. Contact the Marco Support Team with questions or assistance needed to complete the installation at cpdatacollection@marconet.com or call 800-847-3070.

1. From within the email click on the "Click to Install" button to begin installation of the Print Aware collection agent. You can also choose to download the installer by clicking the "Download Here" link.

From: printaware@i.marconet.com
Subject: Get Started with Print Aware, Marco's Monitoring Software

Welcome to Print Aware, Marco's automatic meter and toner fulfillment software, powered by MPS Monitor.

This software reports the meter readings on your copiers and printers, so you don't have to manually collect them.

Thanks to this software:

- You will receive your printer consumables at the right moment
- Will be automatically notified of your printed pages for every billing period

To better manage your direct-connect and networked printers easier, you can install (on one or more) MPS Monitor's data collection agent (DCA). To install on a Microsoft Windows machine, follow these three easy steps:

1. Click on the button below to install or click on the direct link ([Download Here](#))
2. Run the installation on your PC
3. Confirm all steps are completed
4. If the installation was successful, then you will see a green symbol ✓

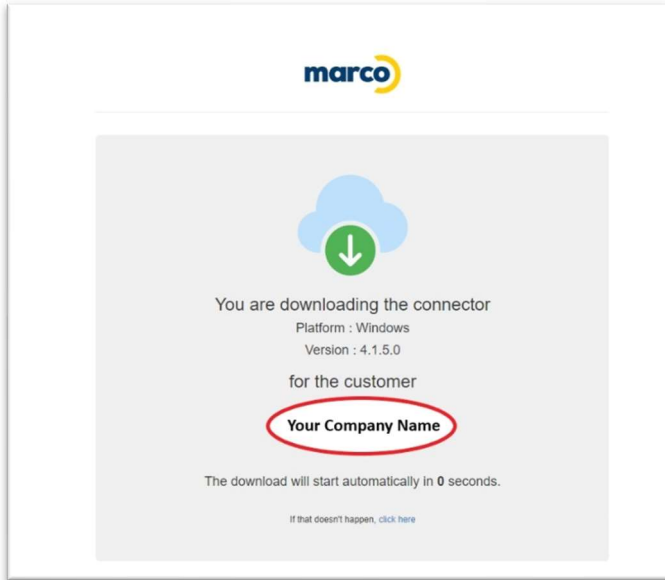

For more information on this software, including security, technical white papers and HIPAA compliance, please visit <https://www.marconet.com/print-aware>.

If you have any questions or would like assistance in the software installation process, please contact us at cpdatacollection@marconet.com or call 800.847.3070.

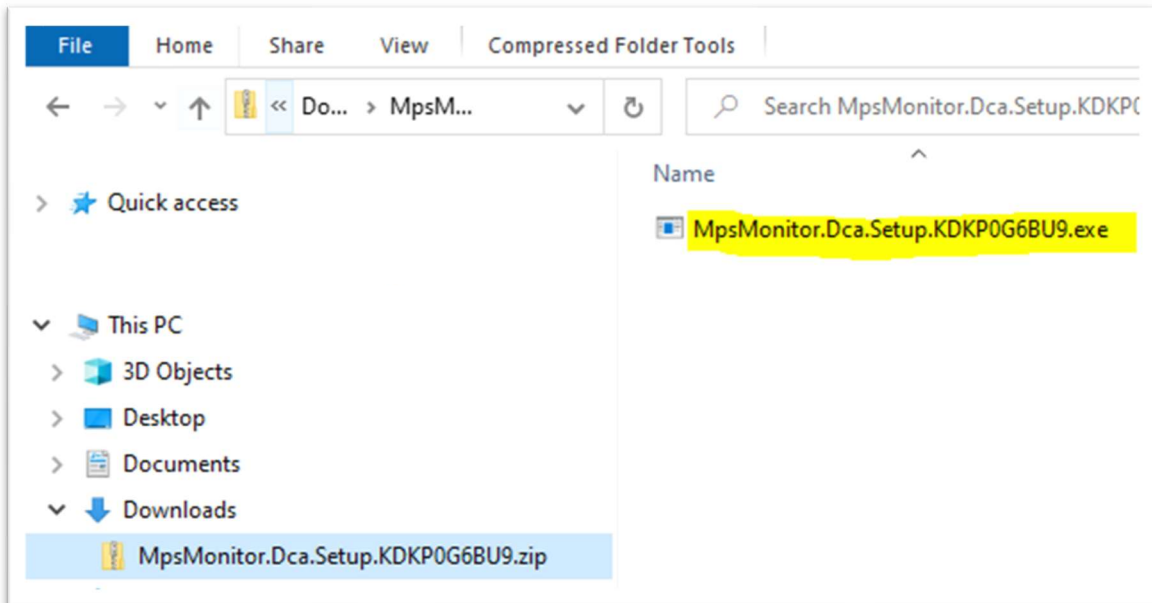

Thank you for being a valued Marco client.

2. Upon clicking the "Click to Install" button the download process will begin. The following download screen will appear in your web browser. Verify that the company name that appears is accurate for your organization. If not, contact the Marco Support Team for assistance.

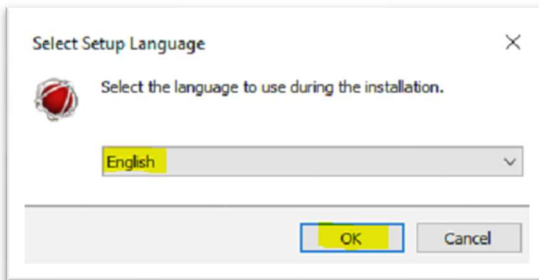

3. Once the download is complete, open the Downloads folder on your computer. Locate and click the MpsMonitor.Dca.Setup.XXXXXXXXXX.zip folder to view the MpsMonitorDca.Setup.XXXXXXXXXX.exe file.

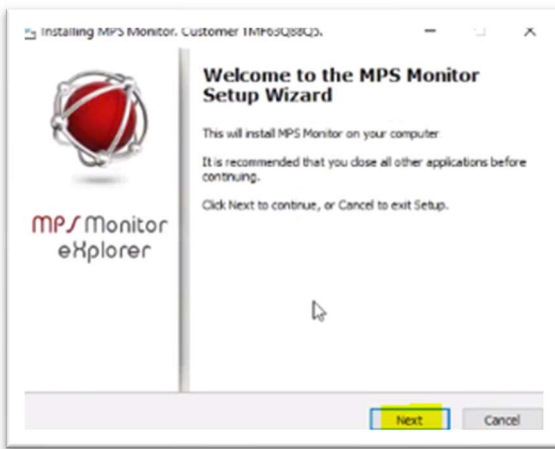

4. Double click the MpsMonitorDca.Setup.XXXXXXXXXX.exe file to begin the installation. If prompted to allow the app to make changes to your device click "Yes" to proceed.

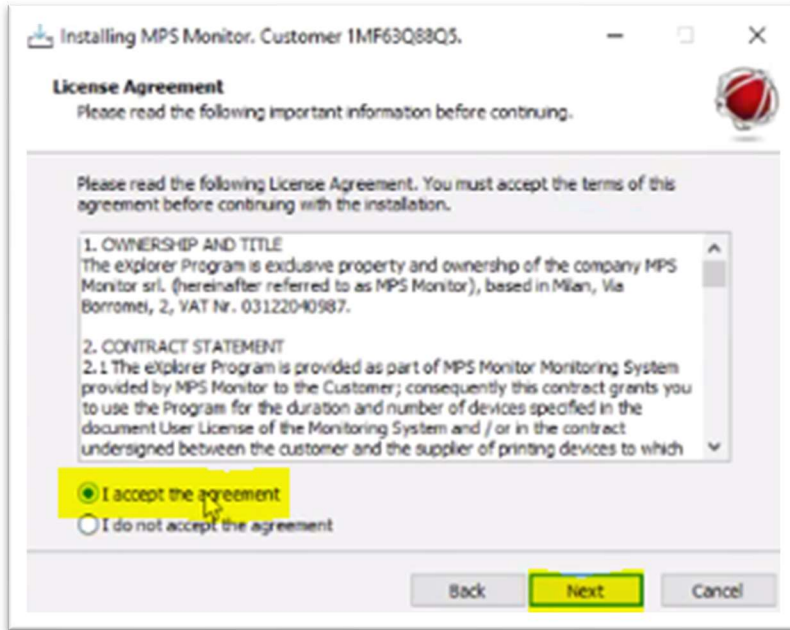

5. You will be prompted to select a language for installation – choose English and click "OK".

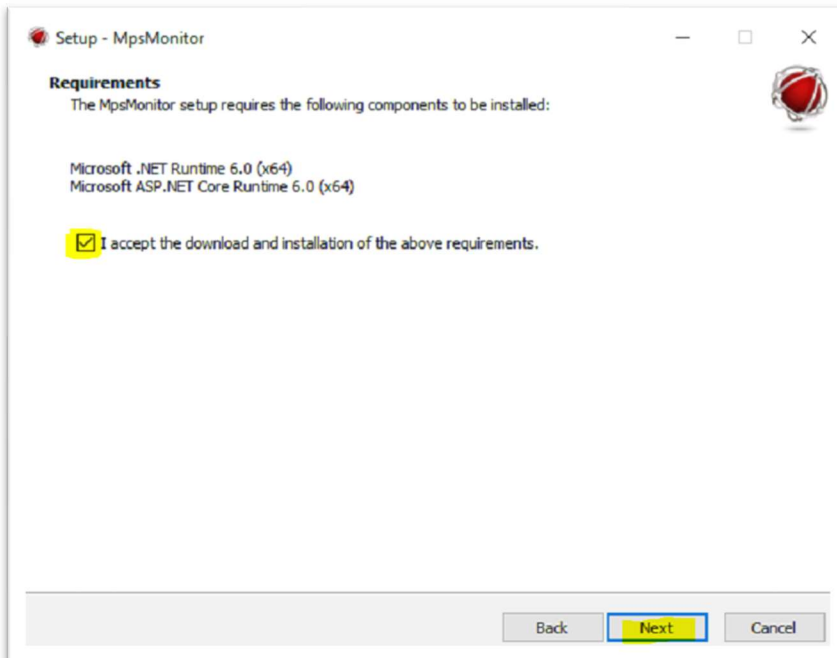

6. Then click "Next" to continue.

7. On the License Agreement page click the radio button for "I accept the agreement" then click "Next" to continue.

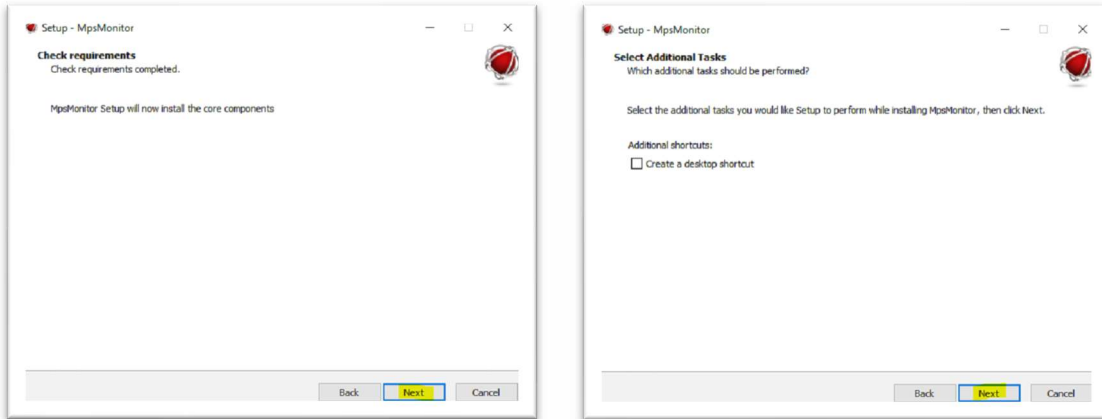

8. On the Requirements page, click to check the "I accept the download of the above requirements" to install Microsoft modules.

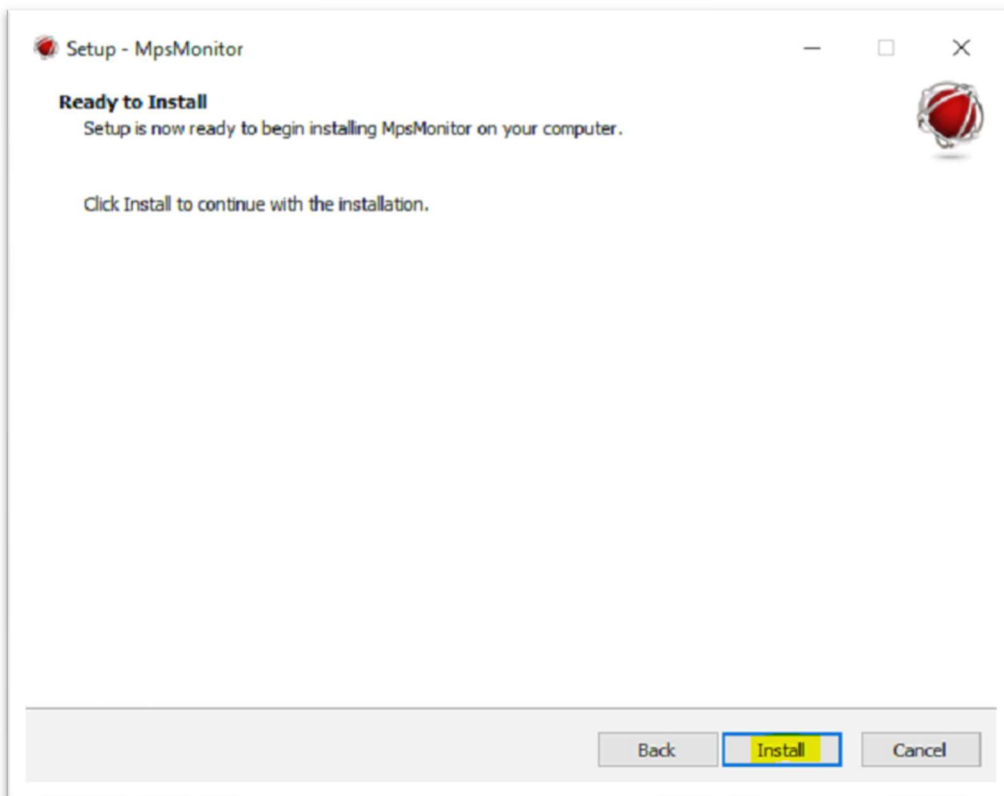

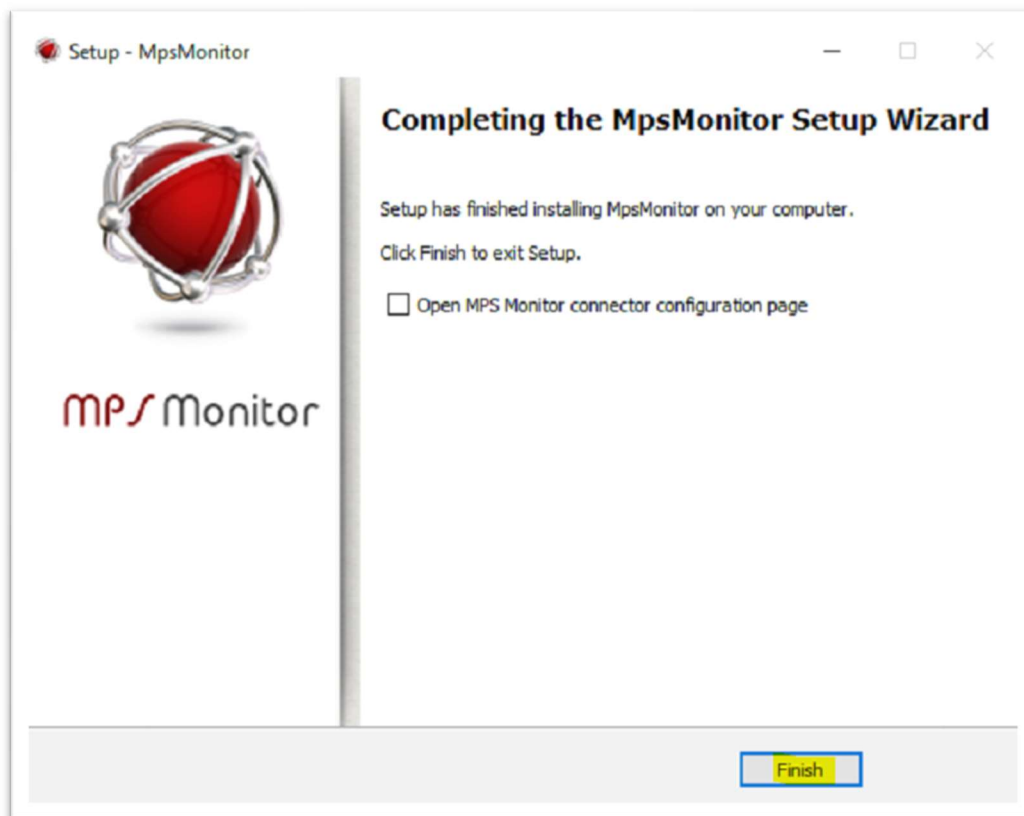

9. Click "Next" on the Check Requirements screen and "Next" on the Select Additional Tasks screen.

10. Click "Install" on the Ready to Install screen. The installation will then take place.

11. Click "Finish" on the Completing the MpsMonitor Setup Wizard screen.

The installation is now completed. Print Aware will continue to run in the background as a service and does not need to be launched when your computer restarts.

If you have any questions or needing assistance from the Marco Support Team, please contact cpdatacollection@marconet.com or call 800-847-3070.
