

# MOVING? TECHNOLOGY THINGS TO CONSIDER WHEN MOVING OFFICES

With the recent shift of working space, are you considering changing your real estate footprint? Have you considered working from home permanently or maybe partially? Or do you need to support hybrid work environments with conferencing and video?

**Marco is here to help. If your organization is moving, contact us approximately six months prior to your move date. Here are some technology considerations:**

## **Moving your internal LAN (wired and wireless) and data center**

- Consider Cloud
- Consider upgrades
- Ensure backup and restore
- Understand cost and timeline

## **Moving your phone system**

- Consider Cloud
- Consider upgrades
- Ensure backup and restore
- Understand move cost and timeline

## **Moving your conference rooms**

- Upgrade audio and video
- Consider streaming and recording
- Understand distribution and hybrid conferencing

## **End user PC**

- Review security policies
- Review applications
- Review security applications

## **Connectivity**

- Move circuits
- Consider bandwidth
- Review voice connections
